

NITHIN BIJU

London, UK | +44 7733 590194 | nithinbiju58@gmail.com | Full UK Right to Work

PROFESSIONAL PROFILE

Highly skilled **Software Engineer** with approximately **5 years of experience** specializing in full-stack development using **React.js, Next.js, and Node.js**. Currently serving as an Associate Consultant at Infosys, delivering enterprise-level solutions for global clients like Verizon. Proven track record in building scalable web applications, managing the entire SDLC, and implementing Agile methodologies. Recently relocated to London with unrestricted right to work and immediate availability to contribute to a dynamic engineering team.

CORE COMPETENCIES

- **Front-End:** React.js, Next.js, Redux, HTML5, CSS3, SASS, Responsive Web Design
- **Back-End:** Node.js, Express.js, GraphQL, REST APIs, Strapi CMS (Custom Plugin Development)
- **Cloud & DB:** Amazon Web Services (AWS), Google Cloud Platform (GCP), Firebase, PostgreSQL, MongoDB
- **Testing & Tools:** Unit Testing (Jest), JMeter, Git, Bitbucket, VS Code
- **Methodologies:** Agile Scrum (Sprint Planning, Retrospectives), SDLC Management, Technical Documentation
- **AI Skills:** Prompt Engineering, GitHub Copilot, Cursor, AI Agent Development, Cloud Code

PROFESSIONAL EXPERIENCE

Infosys | Associate Consultant | Sep 2025 – Present

- Consulted for Verizon on the PRP Portal, a large-scale enterprise Next.js / React.js application.
- Delivered high-performance front-end features in an Agile environment, collaborating with cross-functional teams across geographies.

Envigo Technologies | Technology Consultant (Level 1) | Aug 2021 – Aug 2025

- Delivered end-to-end web solutions using **ReactJS** and **NodeJS**, managing projects from initiation through to deployment.
- Conducted feasibility studies and requirement analysis in collaboration with the Discovery Team.
- Performed **L2 estimation** based on wireframes and designs to improve project planning accuracy.
- Engaged in direct client interactions to resolve ambiguities and align technical deliverables with business goals.

PROJECT EXPERIENCE

- **Verizon PRP Portal (Enterprise Solution) | Sep 2025 – Present**
 - Spearheaded the development and maintenance of the high-performance front-end architecture for the PRP Portal using Next.js and React.js.
 - Collaborated within an Agile environment and cross-functional teams to deliver seamless user experiences for a large-scale enterprise solution.

- **Chicking (Food Delivery Platform) | Aug 2024 – Jun 2025**
 - Developed and maintained the Admin Portal using React JS to manage orders, menus, and user data.
 - Designed and implemented backend services using Google Cloud Functions, GraphQL, PostgreSQL, and Firebase for efficient data handling and scalability.
 - Built the User Portal using NextJS, ensuring a seamless user experience for food ordering and delivery.
 - Integrated DeepL API for multilingual support, enhancing accessibility for global users.
- **Desiweds (Wedding Management PWA) | Jul 2023 – Aug 2024**
 - Developed a Progressive Web App (PWA) using Next.js for wedding event management, enabling bride and groom collaboration.
 - Contributed to the PWA portal (Next JS), Admin, and Vendor portals, resulting in a 20% improvement in user engagement.
- **We Swap Any Car (UK Marketplace) | May 2023 – Jul 2023**
 - Enhanced an online marketplace for swapping, selling, and buying cars across the UK.
 - Managed full SDLC activities, including analyzing user stories, creating sprint plans, delivering tasks within estimates, performing unit testing, and resolving bugs post-QA.
- **Momentum App (TD SYNnex) | Nov 2022 – May 2023**
 - Functioned as a Full Stack Developer (ReactJS, NodeJS, AWS, MongoDB) on a user management and sales report platform.
 - Developed both the Admin panel and a mobile app tailored to different user types.
 - Provided post-completion support and authored technical documentation.
- **Refinu (Personality Assessment Platform) | Nov 2021 – Nov 2022**
 - Built the Admin panel and Web app for a personality assessment platform using React JS and Node JS, with Google Cloud and Firebase.
 - Implemented reflection and nudging tools, improving user engagement by 15%.
 - Provided post-completion support and technical documentation.
